

Medical Documentation of Asthma, Environmental Allergy, or Food Allergy Disabilities

Student Disability Services at Cornell University complies with federal and state disability laws that prohibit discrimination and require that universities ensure equal access for qualified persons with disabilities to educational programs, services and activities. Medical providers can complete this two page form to assist Student Disability Services in determining eligibility and appropriate and reasonable disability accommodations. *With regard to specific housing as a disability accommodation, Cornell has a limited number of residence halls that are relatively new and/or air filtered or air conditioned. We make our best effort to ensure that students with the most significant disabilities have a medically appropriate placement so that they can actively participate in Cornell educational programs and activities. The health care provider completing this form cannot be a family member or relative of the student.*

Student's treating physician completes this section. All items are required. Please print legibly.

Today's Date:	y's Date: Physician's Name (please print):			
Student's Name:		Date of last visit for condition(s):		
Diagnosis(es) and date of onset:				
For Environmental Allergy(ies), p	lease list specific allergens):			
Please indicate severity of environmental allergies for this student:MildModerateSevere Recommendations to the student for allergy management:MildModerateSevere				
Recommendations to the studen	It for allergy management.			
For Asthma , it is:Mild inter	mittent Mild persistent	_Moderate persistent Severe persistent		
What specifically induces asthma attacks for this student:				
Recommendations to the student for asthma management:				
For Food Allergies , please list spe	cific allergens:			
FOI FOUL AIICI SICS , picase list spe				
The following exposures trigger a food allergy reaction: airborne particles skin contact ingestion				
	lease describe):	·		
The food allergies trigger the following reactions:AnaphylaxisAngioedema Rash				
Gastrointestinal symptomsOther (please explain):				

Procedures/assessments used to diagnose (please attach copies of assessment results used in making/

confirming diagnosis):	Spirometry	Allergy Testing	Evaluation by allergy/asthma specialist
Other (please expla	ain):		

Check the following that apply to this student:

- _____ Was treated in the emergency room for this condition within the last year
- _____ Has received in-patient treatment for this condition within the last year
- Prescribed allergy shots
- Prescribed short acting rescue inhaler
- _____ Uses an epinephrine pen (i.e. Epi-pen)
- _____ Recommended to use oral maintenance medications (including antihistamines, leukotriene inhibitors)
- _____ Prescribed inhaled maintenance medications (including steroids, combined beta agonists)

Describe how the above condition(s) substantially limits a major life activity that the average person in the general population can perform with little or no difficulty, and the condition(s) impact(s) on the student's daily life experience in the post-secondary setting (academics, communal living/dining, recreation):

Recommendations for health care and symptom management for the above condition while on campus:
